★ **Sale cattle videos available on our website** ★
www.flyinghgenetics.com

Drought, fires, inflation and high feed prices made 2022 tough for the cattle business. But 2023, 2024 and 2025 may be the best years ever for those in the cattle business!

Higher cattle prices and a good start to building moisture for green grass in 2023 give us a reason to plan for the best years ever!

Imagine—green grass, lower feed costs, bigger calves and more dollars per pound producing record profits!!

Now is the time to make decisions to make that happen!!

The poorest reason I have ever heard for not trying something different is, “we have always done it this way”. As cattle breeders we went from horse and buggy to pickups and trailers, from pencil and paper to typewriters and computers, from the telegraph to mobile phones and from straightbred cattle to crossbred cattle.

The discovery of heterosis/crossbred vigor has been around for 80 years and has helped cattlemen everywhere to move forward and produce more profitable and more efficient cattle than ever before.

The latest example of the benefits of heterosis is the use of beef semen on dairy cows to produce more valuable calves, better beef and more profits.

At Flying H we take Heterosis to the extreme by utilizing 4 Breeds and their composites to produce cattle to fit “YOUR” program for maximum efficiency and profitability.

For 74 years the Helms Family has been using science to produce superior genetics for our customers. Weighing, measuring, testing, scoring, AI, ET, EPD's, DNA and heterosis help us produce superior genetic packages for our customers.

Join us on March 4th for superior genetics + heterosis!!

BRED 4 PROFIT/BUILT 2 WORK

Thank you from all of us at Flying H

CONFERENCE PHONE CALL

CONFERENCE PHONE LINE - will be available to allow you to be in contact with the sale site, hear the sale, ask questions and bid. To use the conference call, please contact us ahead of the sale to get a buyer number. On sale day, just call **1-877-820-7831** and when prompted dial ***4935411***. There will be a representative on the phone at ringside to answer your questions and take your bids. **You cannot use a speaker phone on the conference line as the background noise interferes with everyone else on the line and makes it very difficult to hear.**

If you have any problems with the internet or conference call, please contact the FHG Staff.

REMEMBER - our Customer Satisfaction Guarantee assures you that the bulls you buy will meet or exceed all 17 Quality Standards used as the basis of our Quality Guaranteed Genetics pledge.

If you have any questions or need more information, please contact the FHG Staff.

For information on **Volume Discounts, Limited Free Delivery, Death & Injury Warranty and Heifer Bull Key** see inside back cover of sale book

FURTHER INFORMATION:

INSPECTION OF SALE CATTLE: The cattle are at the ranch and are ready for viewing any time prior to sale day. Please call ahead so someone is available to help you.

TERMS AND CONDITIONS: All cattle sell according to the terms and conditions recommended by the American Gelbvieh Association. Terms of the sale are cash. Every animal will be sold to the highest bidder. Announcements sale day take precedence over printed material in this catalog. All cattle are the property of the buyers as soon as sold and will be cared for until April 1st at no additional cost. Buyer may pickup their purchases anytime after the sale or Flying H Genetics will deliver according to their delivery policy as stated in the sale book.

Any person attending the sale does so at their own risk. Neither the owners or Flying H Genetics assumes any liability, legal or otherwise. All animals listed in the catalog as being Homozygous Polled or Homozygous Black are done so to the best of our knowledge. We are not liable for any inaccuracies. Registration papers will be transferred to the new buyer at the sellers expense.

ABSENTEE BIDS: The following 3 options are available.

1. Call a member of the FHG Staff for a conference call buyer number (info on page 1).
2. Register, view and bid online with DVAuction.com
3. Call a member of the FHG Staff or Livestock Press to have it handled personally..

HEALTH AND BREEDING SOUNDNESS: All animals have been on a complete health program and health papers are available for all 48 states. All bulls will have passed a Breeding Soundness Exam and Semen Test prior to the sale. All sale animals have also been tested negative for PI BVD.

*Since 1982
Flying H Genetics has
guaranteed calving ease
on every bull sold.
Bulls for use on heifers
are identified with a
star system.*

DETAILS ON INSIDE BACK COVER

Money,
Makin'
Mamas™

A LITTLE ABOUT US....

Our Money Makin' Mamas:

We make our registered cows work for a living. Our cows graze year round as the weather allows, including calving on cornstalks. Our heaviest supplement time is during AI season and then they are back to grass or cornstalks to make it on their own. We raise all of our calves including the fall calves on dam only with no creep feed. We wean all of our calves and background them on a grass hay/distillers based diet for a minimum for 60 days. This allows us to analyze our cows and calves and sort the less profitable cattle out of the operation.

Our Replacement Heifer Challenge:

Our weaned replacement heifers graze cornstalks or pasture with minimal supplement targeting a 1.0 to 1.25 gain till yearling weight and palpation time. We then cull accordingly for gain, fleshing ability and maturity. Our top replacements will convert a 1.5 to 2.0 gain on this extreme roughage low energy challenge. This keeps our pregnancy rates in the 90s on virgin heifers and even higher on breed back as 2 and 3 year olds.

Our Roughage N Ready Bulls 2.0:

Our bulls are developed on a high roughage, low starch diet to allow the higher maintenance bulls to sort themselves to the steer pen. This in turn allows the more efficient, lower maintenance bulls to express their ability to convert on a minimal grower ration. This also ensures forage-ability as the bull continues to grow and work for a living once he leaves our place. Our grower ration targets gain from weaning to yearling at an average of 2.7 lbs./day. Our bulls are taking this in stride and averaged 3.15 this year even during the -40 degree temperatures in December.

Our Bred 4 Profit/Built 2 Work Cattle:

When we put all of these components together it produces bulls and females that are efficient in converting forages to red meat. Input costs, including labor, are just as important to keep in check as is making sure the end product is the most valuable it can be. Our bulls are guaranteed to be sound, aggressive breeders that will last for years to come and prove to be a good investment the longer you own them.

Thank you for your interest in our program!!!

Feel free to call and visit at any time, we love talking cattle!!

Lots 1-3

This year we chose to lead the sale off with these 3 Full ET Brothers. They represent a Donor Cow Family from our program that has proven to produce fertile, long-term, easy keeping females that have risen to the top not only for one generation but two generations!! Combine that with Warner's E-Trade Sire and you have the perfect recipe for long lasting, easy keeping, fertile daughters that will stay in your herd year after year and produce those scale busting calves at weaning time. Don't miss the opportunity to take one or all of these brothers home.

Attention Cattlemen and Seedstock Producers!!!
Here are 4 Gelbvieh Full ET Brothers. These brothers represent the best cow family from Crippled W Cattle. Ms. Legacy 48Y is backed by the Ideal Legacy female maker and is still in production at 12 years of age. She has been a top donor cow and placed several sons in Seedstock Operations across the Nation. Whiskey Eclipse is making a name for himself as a Red Purebred Gelbvieh Bull that sires pounds and mass while building females that are easy on the eyes and long lasting.

Here's another set of 3 Full ET Brothers from a second-generation Donor Cow Family. Ms. Flying H 215E has taken her mother's place in the Donor Pen and is surpassing expectations. Main Event is no stranger to the Front Page. These sons are a prime example of why he has been one of the most popular sires in the Simmental Breed. These Fusion Bulls are sure to sire calves that will hit the ground running and pack those pounds on at weaning. With look and style to burn these bulls will be popular sale day.

Take a look at this E-Trade son. His mother is on the fast track to the Donor Pen. She keeps out performing herself year after year. She will be another second-generation Donor. She is moderate framed, solid uddered, easy fleshing and calves early every year. Mr. E-Trade 32K is on the fast track to becoming an AI Sire here at Flying H. Imagine what he can do in your program.

Here is a new spin on a commercial cattlemen's bull. Mr. Block Party 74K is out of a tremendous second-generation donor cow that just flat gets it done every time. 74K's sire Block Party was People's Choice Balancer Bull Futurity Champion in 2021 and currently resides here at Flying H. He brings a new look to our genetics. This son is an example of things to come.

DEER VALLEY GROWTH FUND

Growth Fund brings a lot to the table from a balance, style, fleshing ability and soundness aspect. His fresh genetics have worked well here and we couldn't be more pleased with the results. We feel he will really shine when the replacement heifers hit production.

Here is a lone ET Bull that puts all the pieces together in a no holes package. Mr. 301K is a son of the Great Ms. Ideal 355Z Donor that has registered over 110 calves in her lifetime. She is a foundation female at Flying H and produces daughters that get to the replacement pen and stay in the herd. Her maternal strength **IS** her biggest strength. Combine that with Growth Fund and you have the recipe for moderate, easy fleshing, eye appealing cattle that are fertile, grow, grade and make you money.

Flying H Genetics Roughage 'N Ready Herd Bull Sale

Lot 18-20

These 3 Full ET Growth Fund Brothers are a really nice outcross. Their mother is a full sister to a bull we raised called Grand Slam that currently resides at Diamond D Gelbvieh. She is moderate and fancy with a beautiful udder and plenty of style to spare. These brothers are extremely maternal in their make-up and will produce daughters for the replacement pen and steers that fit the type and kind to make money in the feedlot.

3 Star Heifer Bull

Lot 21

Another great Growth Fund son. This calving ease bull has been on our radar for some time now. His no holes look, EPD profile and pedigree bring him to the top in our mind. His mother is an ET daughter out of the Ms. Ideal 355Z cow and our Traction 45B Sire. That is as maternal as you can get here at Flying H. We plan on using Mr. Growth Fund 330K in our AI program on heifers because he does so many things right. Here's a bull to build a cow herd around.

Flying H Genetics

Flying H Genetics

Flying H Genetics

retains 50% semen interest in every bull sold. The buyer receives 100% possession and resale or salvage value and 50% semen interest. - If Flying H Genetics chooses to utilize their semen interest, they will coordinate with the owner and pay all expenses for their semen. If a semen sales market develops on a bull, Flying H Genetics will work with the owner to promote and sell semen splitting the expenses and income 50/50. Again, this semen reserve does not affect the buyer's ability to have full use of and receive full sale price for the bull with the semen reserve following the bull to the new owner. We estimate that this may only affect 1 or 2 bulls per year. If you have questions, please contact the FHG Staff at any time.

ABBREVIATIONS AND EXPLANATIONS:

- CE – Calving Ease:** the higher the value the greater the calving ease expected in first calf heifers.
- BW – Birth Weight:** expressed in pounds, is a predictor of his ability to transmit more or less birth weight.
- WW –Weaning Weight:** expressed in pounds, is a predictor of his ability to transmit more or less pounds at weaning.
- YW – Yearling Weight:** expressed in pounds, is a predictor of his ability to transmit more or less pounds of yearling growth.
- MK – Milk:** is a predictor of his genetic potential for his daughter's milk and mothering ability.
- CW – Carcass Weight:** expressed in pounds is a predictor of his ability to transmit more or less carcass weight.
- RE – Ribeye Area:** expressed in square inches, is a predictor of his ability to transmit more or less Ribeye area.
- MB – Marbling:** expressed as a USDA marbling score & reflects his ability to improve marbling.
- INDEX**
 - ✓ **Simmental influenced cattle: API – All Purpose Index:** calculates the total potential value of his birth, growth, carcass, muscle & maternal genetics.
 - ✓ **Simmental influenced cattle: TI – Terminal Index:** calculates his terminal (non-maternal) value based on growth, muscle, & carcass.
 - ✓ **Gelbvieh influenced cattle: FPI – Feeder Profit Index:** An economic selection index designed to aid producers in selecting sires whose progeny will perform in the feedlot and are sold on grade and yield. Well ranking sires for FPI have higher marbling and carcass weight than their contemporaries. As a terminal index, little emphasis is put on maternal traits such as stayability and calving ease.
- ADJ SC – Adjusted Scrotal Circumference:** the 12-month adjusted scrotal size of yearling bulls.
- PEDIGREE**
- FHG STAR RANKING SYSTEM**—This system ranks cattle in five major areas of customer genetic needs—Disposition, Growth, Muscle, Carcass and Maternal. See page 24 and inside back cover for more details.
Disposition—1★ & 2★ culled, 3★ Good, 4★ Better, 5★ Best.
Growth, Muscle, Carcass and Maternal—3★ ranking identifies breed average genetics for the trait, a 4★ ranks them within the top 50% to 25% of the breed and a 5★ ranks them within the top 25% of the breed genetically for the traits. Information used to develop these rankings includes performance measurements of the individual animal, his sire and his dam, EPDs and ultrasound data. Our Star Ranking System combines all the data into a simple ranking system to help you easily find the specific genetics you need for a trait or combination of traits.
- COLOR STATUS** - Homo. Black (will only produce black calves), Black (carrier of red color gene), or Red.
- POLLED STATUS**—Homo. Polled (by pedigree or DNA test) will produce only polled calves, Polled or Scurred (not horned).
- BREED MAKEUP**
- COOPERATOR HERD IDENTIFICATION**
- INDIVIDUALS BREED ASSOCIATION ASSIGNED REGISTRATION NUMBER**
- INDIVIDUALS BIRTH DATE**

FLYING H GENETICS DISPOSITION SCORING

Because disposition is a very important management and safety issue, Flying H Genetics has researched and developed a system to score all of their cattle, including any cattle sold for breeding purposes, for disposition to eliminate the unacceptable ones. We have been culling on disposition for years but scoring them quantifies and identifies them more accurately making culling more accurate and effective.

Cattle are a herd instinct animal. Separate them from the herd and their natural response is to flee back to the group or fight for their life. Domesticating them has gentled them but their natural instincts of flight and fight are still there at varying degrees. Generally, the sooner and more often cattle are in contact with and handled by humans in a calm, nonthreatening way, the more trusting and less flighty or threatened they will feel.

Knowing this, our system separates an individual animal from the group into a small pen with one or two people to add a common stressor. Since all cattle have a different disposition (just like people) this will create different degrees of nervousness, flight and fight that can be scored. Scoring the different levels of nervousness, flight and fight allows us to identify different levels of disposition. The scores range from 1 to 5 with 5 being the most calm. This is a subjective score but certain actions help group the cattle into the five different levels. Following is a general description of the type of actions observed while scoring that help rank each individual's disposition.

One Star—animal is very nervous and agitated and is looking for an escape route. Will not stop and stand, tests the fence and will show fight and turn on you if pressed. When the out gate is opened he leaves on the run. He's always at the

back of a group, head up and keeps his distance. He will make others nervous and flighty and is hard to sort from the group. Anything new will create great distress and he will get more agitated the longer he's held separately. Due to safety issues these are culled immediately.

Two Star—animal is nervous and very uncomfortable. He will keep moving, walking the fence and trot or run if approached. Not as likely to show fight but will exit fast. Very observant and keeps his distance even in a group. He will be a little hard to sort from the group. He's always nervous and flighty in a strange situation. He presents a safety concern and causes handling problems with the whole herd so is culled asap.

Three Star—animal is uncomfortable wanting to keep distance. He will stop but is very attentive and moves without much pressure. He'll exit at a fast walk or slight trot. Handles fine in a group but gets nervous when separated, wanting to rejoin the herd. Can get excited if pressured or forced out of comfort zone so low stress, low pressure handling helps.

Four Star—animal moves when pressure is applied but will stop easily. Will stand and allow you to approach but not get too close. Exits at a walk. Fast movements, loud noises and strange situations will make him nervous. Low stress handling works great.

Five Star—animal is very calm and gentle, easy to sort and move. Will stand, allow you to approach and maybe touch him and may even approach you. Needs to be urged to leave the pen. Can get excited but calms down quickly. Responds well to proper handling.

Flying H Genetics – Additional Information

- **For an accurate ranking or comparison** within the different breeds we use our 5 STAR INDEX to rank them so you can easily find bulls that fit the needs you have. Need more muscle? Pick 4 and 5 STAR MUSCLE bulls. Need a bull to produce replacement heifers? Pick bulls with 4 and 5 STARS for MATERNAL. There are a number of bulls that have 5 STARS for all traits which means they rank in the top 25% of their breed for all these traits—exceptional genetic packages. **Our 5 STAR INDEX allows you to find the best genetics for your needs without having to know all the numbers and breed rankings.**
- **Since 2012 Gelbvieh, Balancer, Simmental, SimAngus and Red Angus EPDs have all been calculated by International Genetics Solutions based in Bozeman, Montana.** Each breed has a slightly different average but all use the world's largest multibreed data set with over 12,000,000 data points to calculate their EPDs and are comparable against each other. We offer you several genetic packages so you can select from the best genetics possible instead of being limited to just one breed or hybrid. **What makes this extra special is that, since all breeds offered are evaluated genetically with the same data set and reported on the same base, they are comparable against each other.**
- **Why pay \$6 per pound for fat?** The only reason bulls are fed fat is to make them look better because it increases their weights and they "look" thicker and smoother; none of this changes the genetics or pounds they transfer to their calves. Roughage 'N Ready bulls are the real deal—what you see is what you get—and they will look better, not worse, because they will continue to grow instead of melting off 100 pounds of fat. **If our weaning weights and yearling weights are less than you are used to, just add the 100 pound—fat—factor and I bet you'll agree that they are as good as any in the industry**
- **We offer you frame scores on every bull as an important piece of data** to help quantify the potential mature size and composition of the bulls. After 30 years of frame scoring, I can tell you it is the least accurate measurement taken. Repeatability is the lowest of anything we measure, so we recommend that you use it but don't get so specific that if it is a half a frame score taller or shorter than you like, don't eliminate the bull just for his frame score. A half a frame score is only 1" and can be affected by how the bull holds his head or places his feet while taking the measurement. **Obviously, there is a noticeable difference between a frame 5 and 6 bull but don't discount a bull if he is a half score off from your ideal because you may eliminate a tremendous bull that will make you a lot of money.**

Flying H Genetics Roughage 'N Ready Herd Bull Sale

VOLUME DISCOUNT ON BULLS

- 5% of total purchase price on 5-9 bulls
- 10% of total purchase price on 10+ bulls
- Discounts apply at both NE (Spring) and MO (Spring & Fall) sales
- Discounts may be combined between NE and MO Spring sales

IDENTIFYING HEIFER BULLS

Because of the interest in, need for, and importance of correctly identifying bulls to be used on first calf heifers, Flying H Genetics has developed a “**5 STAR SYSTEM**”. This system ranks bulls we believe (and guarantee) will work on heifers and not cause above normal calving difficulty due to size and shape of the calf.

“**One Star**” bull should work on larger, well-developed heifers with above average pelvic measurements.

“**Three Star**” bulls increase the comfort level and degree of calving ease and can be used in most heifer development situations.

“**Five Star**” heifer bulls give exceptional calving ease with little assistance expected, except in abnormal presentations, etc.

All bulls offered by Flying H Genetics that qualify to be guaranteed as heifer bulls will be identified by the **5 Star System**.

Even this system cannot guarantee every heifer bred to these bulls will calve unassisted. There are at least 16 different criterion that affect calving ease with birth weight being the largest factor. Other factors like sex of calf, shape of calf and size of bone, condition score of heifer, age of heifer, feed protein level, weather prior to and during calving, the heifers genetics for calving ease and birth weight, gestation length, heterosis, pelvic opening size and presentation of calf all affect calving ease.

The **5 Star System** is not perfect but it will eliminate most problems caused by the genetics of the bulls breeding the heifers. And—if we find one that doesn't work and he is guaranteed for calving ease on heifers with our **5 Star System**—we will replace him with another bull of your choice with full credit from the original bull. It's not perfect, but it is one of the best systems and guarantees you'll find anywhere.

Questions, call the FHG Staff.

ADDITIONAL DEATH & INJURY WARRANTY

Flying H Genetics has offers to share death and injury losses suffered during the “**FIRST BREEDING SEASON**” with its customers.

Warranty is as follows:

COVERAGE/LIMITATIONS

- Coverage is limited to “**FIRST BREEDING SEASON OR MAXIMUM OF 6 MONTHS FROM DATE OF PURCHASE**” unless other arrangements are made before purchase
- **Coverage includes all death and injury unless negligence, willful misconduct or mistreatment of livestock is deemed the cause**
- Replacement Value is no greater than the purchase price of the bull minus any salvage value or compensation received by customer

CLAIMS

- All claims must be reported within 24 hours of discovery and include a complete diagnosis by a licensed veterinarian

INJURES

- If not life threatening or permanent, FHG will work with customers to supply a bull to breed cows, at no cost, until the customer's bull can return to service

LOSS DUE TO INJURY

- If injury prevents the bull from returning to service, FHG will supply a replacement bull (at no cost) to complete the first breeding season
- The customer can choose to keep the replacement bull or receive credit to purchase a bull of their choice at any FHG sale
- Any credit to the customer will reflect the compensation the

customer has received from an salvage value of the bulls possession, original or replacement bull

LOSS DUE TO DEATH

- When bull dies, between the date of purchase and “**FIRST BREEDING SEASON OR WITHIN 6 MONTHS OF PURCHASE**” at no fault of customer, FHG will supply a replacement bull, at no cost
- Customer may keep replacement bull, return to FHG or salvage bull at end of breeding season
- Customer will receive credit at FHG sale, minus any salvage value or insurance compensation (of original bull), if replacement bull doesn't meet customers satisfaction

COST

- **10% OF PURCHASE PRICE**, due at time of purchase (good for first breeding season or 6 months from date of purchase)
- If customer chooses not to take extended warranty, customer assumes all liability of bull once purchased
- Extended warranty doesn't affect our guarantees on disposition, calving ease and customer satisfaction
- **EXTENDED WARRANTY NOT AVAILABLE ON REPLACEMENT BULLS**

LIMITED FREE DELIVERY = 40 YEARS AND COUNTING

Flying H Genetics has offered “Limited” Free Delivery as a customer service because we feel it is important to visit your operation, see your cattle and make sure our genetics are helping you produce increased profit.

- **FREE DELIVERY within 400 MILES**
- **BUYER INCENTIVE = \$100 DISCOUNT PER BUYER NUMBER by taking purchase home sale day**
- Delivery over 400 miles will be a case by case basis
