For the love of cows

Spend any amount of time talking to a livestock owner and it doesn't take long to realize the passion that is in each and every one of us. We don't do what we do for the money, the glory or the fame. We do it because we truly love what we do. Day in and day out our hearts are filled. We are grateful to have the opportunity to care for our livestock, in the good and the bad.

The friends, family and neighbors that we gather with at cattle shows, national conventions, bull sales and even the local county fair remind us just how fortunate we are. We are blessed to live this life and gather with some of the greatest people in the world.

As we reflect back on past sales and past customers, it's humbling to think that we have had the support of so many over such a length of time. It pushes us to be better, more forward thinking and make choices that will benefit both our operation and yours long into the future.

As we move into another sale season, we can't help but evaluate the current situation. With national cow numbers at a record low, we must start thinking about rebuilding and expanding. When and how? Time will tell. We are confident that this set of bulls will help you position yourself to be ready. Ready for what? Whatever direction you choose to move your operation. Analyze your current situation and make the right moves to position you and your family's operation for the future.

As you analyze the bulls this year, just remember, we appreciate you and your family for letting us be a part of your operation. We look forward to seeing many old friends and making some new ones. For the love of cows, please join us sale day to cover yours!!

Thank you and God Bless

3 Ways to Bid!

Several options are available for your convenience to bid remotely. Please contact us if you have any questions or need any help. We also welcome you to the ranch to look at the bulls ahead of sale day. Setting up your absentee bidding option a few days before the sale is recommended.

1

PLACE YOUR ORDER

Place an order any time ahead of sale day by calling Kyle 308-963-6940 or Bryan 307-840-0920. One of our sale day representatives will be available to assist you during the sale.

2

WATCH AND BID ONLINE AT SUPERIOR LIVESTOCK

VIEWING: The auction will be broadcast online at Bid.SuperiorLivestock.com and pre-recorded videos will also be hosted there. You do not need an account just to watch the auction or view videos of the sale offering.

ONLINE BIDDING: Go to Bid.SuperiorLivestock.com for Superior's new online bidding platform. If you have not registered there before, you will need to create an account. The first time you register an account you will receive a confirmation e-mail that you must click on. Once you have completed this, select the auction you would like to bid on and click the "Request a Buyer Number" button. The first time you request a buyer number you will be sent a confirmation code via text. Enter that code in the login portal and you will receive a buyer number. This 2-step verification process will only have to be done once and in the future you will be able to simply login and request a buyer number and receive it instantly for any auction. Once you have successfully registered and received a buyer number it will show your name and buyer number on both the video preview page and the online bidding page when you are logged in. If you have an account at LiveAuctions.tv you may skip the registration process and use those login credentials to request a buyer number as LiveAuction is a division of Superior Livestock. For more details on registering an account and also how to bid, you may watch a tutorial at Bid.SuperiorLivestock.com/how-it-works.

For assistance, call Superior Productions at 800-422-2117

3

PHONE BIDDING

Flying H Genetics has a conference call number with an access code that you can be on live during the sale to bid. Call 267-807-9605 and enter access code 198068#.

A Huge Thank You !!!

To Our Current Cooperators

As a valued Cooperator and Friend we couldn't do it without you. Your dedication to breed leading genetics, hard work and commitment show in the quality of cattle you produce that we are proud to stamp the Flying H name on.

Flying H Genetics Roughage 'N Ready Herd Bull Sale

Attention Buyers

**SALE ORDER AND SUPPLEMENT SHEET WILL BE POSTED ON
www.flyinghgenetics.com THE WEEK OF THE SALE AND ON SALE DAY.**

CONTENTS:

Letter	Inside front cover	18 Month Old Bulls	5
Sale Day Information and Contacts	1	Yearling Bulls	9
Cooperator Herds	2	Flying H Genetics 2023 Scrapbook	26
Further Information and Breed Average EPDs	3	Explanation of EPDs and DNA	27
A Little About Us	4	Disposition Scoring, Additional Information	28
		Discounts, Delivery, Warranty,	Inside back cover and Heifer Bull Key

FURTHER INFORMATION:

INSPECTION OF SALE CATTLE: The cattle are at the ranch and are ready for viewing any time prior to sale day. Please call ahead so someone is available to help you.

TERMS AND CONDITIONS: All cattle sell according to the terms and conditions recommended by the American Gelbvieh Association. Terms of the sale are cash. Every animal will be sold to the highest bidder. Announcements sale day take precedence over printed material in this catalog. All cattle are the property of the buyers as soon as sold and will be cared for until April 1st at no additional cost. Buyer may pickup their purchases anytime after the sale or Flying H Genetics will deliver according to their delivery policy as stated in the sale book.

Any person attending the sale does so at their own risk. Neither the owners or Flying H Genetics assumes any liability, legal or otherwise. All animals listed in the catalog as being Homozygous Polled or Homozygous Black are done so to the best of our knowledge. We are not liable for any inaccuracies. Registration papers will be transferred to the new buyer at the sellers expense.

HEALTH AND BREEDING SOUNDNESS: All animals have been on a complete health program and health papers are available for all 48 states. All bulls will have passed a Breeding Soundness Exam and Semen Test prior to the sale. All sale animals have also been tested negative for PI BVD.

*Since 1982
Flying H Genetics has
guaranteed calving ease
on every bull sold.
Bulls for use on heifers
are identified with a
star system.*

Flying H Genetics Roughage 'N Ready Herd Bull Sale

Money,
Makin'
Mamas™

A LITTLE ABOUT US....

Our Money Makin' Mamas:

We make our registered cows work for a living. Our cows graze year round as the weather allows, including calving on cornstalks. Our heaviest supplement time is during AI season and then they are back to grass or cornstalks to make it on their own. We raise all of our calves including the fall calves on dam only with no creep feed. We wean all of our calves and background them on a grass hay/distillers based diet of a minimum for 60 days. This allows us to analyze our cows and calves and sort the less profitable cattle out of the operation.

Our Replacement Heifer Challenge:

Our weaned replacement heifers graze cornstalks or pasture with minimal supplement targeting a 1.0 to 1.25 gain till yearling weight and palpation time. We then cull accordingly for gain, fleshing ability and maturity. Our top replacements will convert a 1.5 to 2.0 gain on this extreme roughage low energy challenge. This keeps our pregnancy rates in the 90s on virgin heifers and even higher on breed back as 2 and 3 year olds.

Our Roughage N Ready Bulls 2.0:

Our bulls are developed on a high roughage, low starch diet to allow the higher maintenance bulls to sort themselves to the steer pen. This in turn allows the more efficient, lower maintenance bulls to express their ability to convert on a minimal grower ration. This also ensures forage-ability as the bull continues to grow and work for a living once he leaves our place. Our grower ration targets gain from weaning to yearling at an average of 2.75 lbs./day. Our bulls are taking this in stride and averaged 3.27 this year.

Our Bred 4 Profit/Built 2 Work Cattle:

When we put all of these components together it produces bulls and females that are efficient in converting forages to red meat. Input costs, including labor, are just as important to keep in check as is making sure the end product is the most valuable it can be. Our bulls are guaranteed to be sound, aggressive breeders that will last for years to come and prove to be a good investment the longer you own them.

Thank you for your interest in our program!!!

Feel free to call and visit at any time, we love talking cattle!!

18 Month Old-Age Advantaged Bulls

We are extremely excited for the opportunity to offer Age Advantaged bulls this year. As our fall herd expands, you are being given the opportunity to sort from an entire year's calf crop at one time in one sale. These bulls are raised on cornstalks with their mother and no creep. Our cows are expected to breed back in a 60-day window with little supplementation through the harsh breeding season while nursing a calf. This ensures fertility and forage-ability.

These bulls are then moved to native pasture from weaning through yearling to ensure slow growth and soundness long-term. They are then fed a grower ration with the spring weaned bulls to allow them to express themselves genetically and be ready for turnout.

Deer Valley Growth Fund | Sire of Lot 1

Here is a bull to build a program around. His fleshing ability combined with his overall performance on the dirt and on paper make him a unique individual. With a weaning ratio of 111 and a yearling ratio of 108, his real-world data matches his EPD's. His top 1% growth along with his top 1% heifer pregnancy and preg 30 tied together with carcass merit in the top 10% create a bull that covers all the bases. His calves will combine power, forage-ability, longevity and performance.

Yearling Roughage N Ready Bulls

This year's set of spring yearling bulls is as powerful, sound and uniform as any set we have sold to date. They are raised on native pasture with no creep, only sunshine, green grass and momma's milk. They are then weaned on native grass hay and distillers. Our high roughage bull developer ration is targeted at 2.75 lbs./day gain. This year's set of bulls rocked a 3.27 ADG proving their ability to perform on roughage and convert. These bulls will make efficient cows that can forage and efficient calves that will feed.

We decided to lead our yearlings off with a set of ¾ brothers that are as well rounded as you can build a pair. These brothers are a result of planned Embryo Transfer daughters and a sire from Warner Beef that is as well rounded as they are. With performance ratios over 100 for both weaning and yearling, a set of EPD's in the top 20% for growth, maternal and carcass, these brothers will fit the bill anywhere. A full brother to Lot 21 to currently working at Standing Mill Iron Ranch. Medium frames, big scrotals and long-strides combine to build a couple of noteworthy brothers.

Gelbvieh

Lot 23

Take a look at this Purebred Gelbvieh bull. He combines our great Traction 45B, our high-power donor FHG 355Z, CCRO Leverage and the DDGR Baller bull all into one complete package. With ratios of 111 at weaning and 103 at yearling his calves will grow but his daughters won't break the bank with the feed bill. He's moderate framed, big topped, big scrotaled with an EPD profile that shows growth, maternal strength and carcass merit all in one great looking package.

Gelbvieh

Gelbvieh

Another Purebred Gelbvieh bull that checks a lot of boxes. He is phenotypically a standout in our opinion. He is out of Grand Slam's full-sister, who currently resides in our donor pen, and the DDGR Baller bull to create a truly unique individual. His moderate frame and moderate growth will produce females that will be easy keeping and extremely efficient long-term. Take a bull like this and build a cow herd that will last for years.

Balancer®

This is in our opinion the soundest, longest strided bull in the sale. In motion you can't help but appreciate the foot size and ease that this bull moves with. Rebel Yell has been extremely popular across the nation creating cattle with look, substance and soundness. Moderately sized, big scrotaled with ratios of 109 at weaning and 105 at yearling combined with EPDs for maternal strength he will build you a cowherd that will last a lifetime and produce calves that will make you money at the barn.

This set of ET Brothers really hits you hard when you walk in the pen. Their consistency, natural muscle, base width, thick top, eye appeal and foot size come together to create a set of bulls everyone can appreciate. As with all our ETs they were grown with no creep on a set of receipt cows. They performed even under less than ideal conditions. These all-around cowboy bulls can build a set of replacement females and a set of feeder calves the buyers will line up to get their hands on. Buy them all and add a ton of consistency to your calf crop.

FLYING H GENETICS DISPOSITION SCORING

Because disposition is a very important management and safety issue, Flying H Genetics has researched and developed a system to score all of their cattle, including any cattle sold for breeding purposes, for disposition to eliminate the unacceptable ones. We have been culling on disposition for years but scoring them quantifies and identifies them more accurately making culling more accurate and effective.

Cattle are a herd instinct animal. Separate them from the herd and their natural response is to flee back to the group or fight for their life. Domesticating them has gentled them but their natural instincts of flight and fight are still there at varying degrees. Generally, the sooner and more often cattle are in contact with and handled by humans in a calm, nonthreatening way, the more trusting and less flighty or threatened they will feel.

Knowing this, our system separates an individual animal from the group into a small pen with one or two people to add a common stressor. Since all cattle have a different disposition (just like people) this will create different degrees of nervousness, flight and fight that can be scored. Scoring the different levels of nervousness, flight and fight allows us to identify different levels of disposition. The scores range from 1 to 5 with 5 being the most calm. This is a subjective score but certain actions help group the cattle into the five different levels. Following is a general description of the type of actions observed while scoring that help rank each individual's disposition.

One Star—animal is very nervous and agitated and is looking for an escape route. Will not stop and stand, tests the fence and will show fight and turn on you if pressed. When the out gate is opened he leaves on the run. He's always at the

back of a group, head up and keeps his distance. He will make others nervous and flighty and is hard to sort from the group. Anything new will create great distress and he will get more agitated the longer he's held separately. Due to safety issues these are culled immediately.

Two Star—animal is nervous and very uncomfortable. He will keep moving, walking the fence and trot or run if aHomo Polledroached. Not as likely to show fight but will exit fast. Very observant and keeps his distance even in a group. He will be a little hard to sort from the group. He's always nervous and flighty in a strange situation. He presents a safety concern and causes handling problems with the whole herd so is culled asap.

Three Star—animal is uncomfortable wanting to keep distance. He will stop but is very attentive and moves without much pressure. He'll exit at a fast walk or slight trot. Handles fine in a group but gets nervous when separated, wanting to rejoin the herd. Can get excited if pressured or forced out of comfort zone so low stress, low pressure handling helps.

Four Star—animal moves when pressure is aHomo Polledlied but will stop easily. Will stand and allow you to aHomo Polledroach but not get too close. Exits at a walk. Fast movements, load noises and strange situations will make him nervous. Low stress handling works great.

Five Star—animal is very calm and gentle, easy to sort and move. Will stand, allow you to aHomo Polledroach and maybe touch him and may even aHomo Polledroach you. Needs to be urged to leave the pen. Can get excited but calms down quickly. Responds well to proper handling.

Flying H Genetics - Additional Information

- **For an accurate ranking or comparison** within the different breeds we use our 5 STAR INDEX to rank them so you can easily find bulls that fit the needs you have. Need more muscle? Pick 4 and 5 STAR MUSCLE bulls. Need a bull to produce replacement heifers? Pick bulls with 4 and 5 STARS for MATERNAL. There are a number of bulls that have 5 STARS for all traits which means they rank in the top 25% of their breed for all these traits—exceptional genetic packages. **Our 5 STAR INDEX allows you to find the best genetics for your needs without having to know all the numbers and breed rankings.**
- **Since 2012 Gelbvieh, Balancer, Simmental, SimAngus and Red Angus EPDs have all been calculated by International Genetics Solutions based in Bozeman, Montana.** Each breed has a slightly different average but all use the world's largest multibreed data set with over 12,000,000 data points to calculate their EPDs and are comparable against each other. We offer you several genetic packages so you can select from the best genetics possible instead of being limited to just one breed or hybrid. **What makes this extra special is that, since all breeds offered are evaluated genetically with the same data set and reported on the same base, they are comparable against each other.**
- **Why pay \$6 per pound for fat?** The only reason bulls are fed fat is to make them look better because it increases their weights and they "look" thicker and smoother; none of this changes the genetics or pounds they transfer to their calves. Roughage 'N Ready bulls are the real deal—what you see is what you get—and they will look better, not worse, because they will continue to grow instead of melting off 100 pounds of fat. **If our weaning weights and yearling weights are less than you are used to, just add the 100 pound—fat—factor and I bet you'll agree that they are as good as any in the industry**
- **We offer you frame scores on every bull as an important piece of data** to help quantify the potential mature size and composition of the bulls. After 30 years of frame scoring, I can tell you it is the least accurate measurement taken. Repeatability is the lowest of anything we measure, so we recommend that you use it but don't get so specific that if it is a half a frame score taller or shorter than you like, don't eliminate the bull just for his frame score. A half a frame score is only 1" and can be affected by how the bull holds his head or places his feet while taking the measurement. **Obviously, there is a noticeable difference between a frame 5 and 6 bull but don't discount a bull if he is a half score off from your ideal because you may eliminate a tremendous bull that will make you a lot of money.**

Flying H Genetics Roughage 'N Ready Herd Bull Sale

VOLUME DISCOUNT ON BULLS

- 5% of total purchase on 5-9 bulls
- 10% of total purchase on 10+ bulls

Contact FHG staff with questions.

LIMITED FREE DELIVERY = 40 YEARS AND COUNTING

- **FREE DELIVERY within 500 MILES**
- **BUYER INCENTIVE = \$100 DISCOUNT PER BUYER NUMBER by taking purchase home sale day**
- Delivery over 500 miles will be a case by case basis

IDENTIFYING HEIFER BULLS

Because of the interest in, need for, and importance of correctly identifying bulls to be used on first calf heifers, Flying H Genetics has developed a "5 STAR SYSTEM". This system ranks bulls we believe (and guarantee) will work on heifers and not cause above normal calving difficulty due to size and shape of the calf.

A "One Star" bull should work on larger, well-developed heifers with above average pelvic measurements.

"Three Star" bulls increase the comfort level and degree of calving ease and can be used in most heifer development situations.

"Five Star" heifer bulls give exceptional calving ease with little assistance expected, except in abnormal presentations, etc.

All bulls offered by Flying H Genetics that qualify to be guaranteed as heifer bulls will be identified by the 5 Star System.

Even this system cannot guarantee every heifer bred to these bulls will calve unassisted. There are at least 16 different criterion that affect calving ease with birth weight being the largest factor. Other factors like sex of calf, shape of calf and size of bone, condition score of heifer, age of heifer, feed protein level, weather prior to and during calving, the heifers genetics for calving ease and birth weight, gestation length, heterosis, pelvic opening size and presentation of calf all affect calving ease.

The 5 Star System is not perfect but it will eliminate most problems caused by the genetics of the bulls breeding the heifers. And—if we find one that doesn't work and he is guaranteed for calving ease on heifers with our 5 Star System—we will replace him with another bull of your choice with full credit from the original bull. It's not perfect, but it is one of the best systems and guarantees you'll find anywhere.

Questions, call the FHG Staff.

ADDITIONAL DEATH & INJURY WARRANTY

Flying H Genetics offers to share death and injury losses suffered during the "FIRST BREEDING SEASON" with its customers.

Warranty is as follows:

COVERAGE/LIMITATIONS

- Coverage is limited to "FIRST BREEDING SEASON OR MAXIMUM OF 6 MONTHS FROM DATE OF PURCHASE" unless other arrangements are made before purchase
- **Coverage includes all death and injury unless negligence, willful misconduct or mistreatment of livestock is deemed the cause**
- Replacement Value is no greater than the purchase of the bull minus any salvage value or compensation received by customer

CLAIMS

- All claims must be reported within 24 hours of discovery and include a complete diagnosis by a licensed veterinarian

INJURIES

- If not life threatening or permanent, FHG will work with customers to supply a bull to breed cows, at no cost, until the customer's bull can return to service

LOSS DUE TO INJURY

- If injury prevents the bull from returning to service, FHG will supply a replacement bull (at no cost) to complete the first breeding season
- The customer can choose to keep the replacement bull or receive credit to purchase a bull of their choice at any FHG sale
- Any credit to the customer will reflect the compensation the customer has received from any salvage value of the bulls possession, original or replacement bull

LOSS DUE TO DEATH

- When a bull dies, between the date of purchase and "FIRST BREEDING SEASON OR WITHIN 6 MONTHS OF PURCHASE" at no fault of customer, FHG will supply a replacement bull, at no cost
- Customer may keep replacement bull, return to FHG or salvage bull at end of breeding season
- Customer will receive credit at FHG sale, minus any salvage value or insurance compensation (of original bull), if replacement bull doesn't meet customers satisfaction

COST

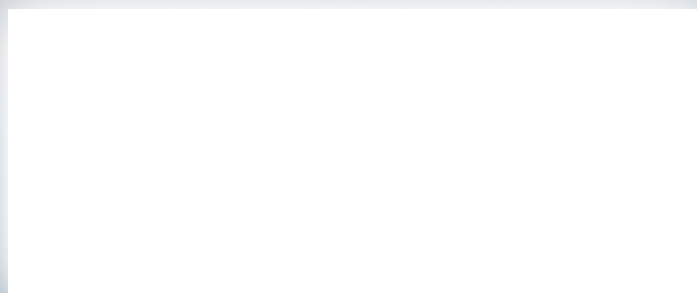

- **10% OF PURCHASE PRICE, due at time of purchase (good for first breeding season or 6 months from date of purchase)**
- If customer chooses not to take extended warranty, customer assumes all liability of bull once purchased
- Extended warranty doesn't affect our guarantees on disposition, calving ease and customer satisfaction
- **EXTENDED WARRANTY NOT AVAILABLE ON REPLACEMENT BULLS**
